M. C. A (2023 - 2025)

SASTRA Deemed University
| CGPA - 7.45

B. Sc Computer Science (2020 - 2023)

St. Joseph's College (Autonomous)
| CGPA - 8.28

IT PROFICIENCY

Have undergone **Java Full Stack Training**
in **QSPIDERS CHROME PET**

PROJECTS

Cab Management System

- **Tools used:** Developed a cab management system using HTML, CSS, Bootstrap for frontend, MySQL with XAMPP, PHP for backend.
- **Webpages contained:** It monitors taxi conditions, schedules servicing, and enhances performance for user satisfaction.

Cloud Kitchen

- **Tools used:** Developed a cloud kitchen management system aimed at supporting small-scale gravy shops and homemade food businesses. Utilized HTML, CSS, Tailwind CSS, and JavaScript for an interactive and responsive frontend.
- **Project Overview:** The system streamlined daily kitchen operations, optimized order management through integrated technology. The platform also featured GST calculation and total food price prediction, blending traditional culinary practices with modern digital delivery solutions.

CERTIFICATIONS

- **The Complete Java Development Bootcamp** from **Udemy**
- **Automation Tester Blueprint with JAVA** from **The Testing Academy**
- **Workshop on Artificial Intelligence with Machine Learning** from **Mechanica 2025, IIT Madras**
