EDUCATION

SASTRA Deemed University

Master of Computer Application (MCA) - CGPA: 7.45

AUG 2023 - JUNE 2025

St. Joseph's College (Autonomous)

Bachelors in Computer Science - CGPA: 8.24

AUG 2020 - MAY 2023

PROJECTS

Cloudkitchen — HTML5, CSS3, JavaScript, Firebase / Node.js, Chart.js

[GitHub](#) [Live Demo](#)

- Responsive Food Order Management Web App
- Developed a responsive web application for managing food orders, menu items, and daily sales.
- Implemented daily and monthly sales tracking using Chart.js for visual analytics.
- Integrated QR-based payment system for seamless transactions.
- Designed intuitive UI for easy menu management and order monitoring.

Cab Management System — HTML5, CSS3, Bootstrap, PHP, MySQL (XAMPP)

[GitHub](#) [Live Demo](#)

- Taxi Monitoring and Maintenance Tracker
- Built a system to monitor taxi conditions, schedule servicing, and provide safety alerts.
- Developed backend functionality using PHP and MySQL (XAMPP) for data handling.
- Enhanced fleet management efficiency by providing timely maintenance notifications.
- Designed responsive UI with Bootstrap for clear status and alert displays.

Blog Creation — HTML5, CSS3, Bootstrap, JavaScript, MySQL (XAMPP)

[GitHub](#) [Live Demo](#)

- Full-Featured PHP Blog System
- Developed a blog platform supporting full CRUD operations with a MySQL backend.
- Enabled Markdown-style formatting for posts (bold, italic, headers) for rich content creation.
- Implemented user-friendly success and error notifications to improve UX.
- Designed responsive front-end using Bootstrap for seamless navigation.

TECHNICAL SKILLS

- **Languages & Frameworks:** HTML5, CSS3, JavaScript, Java, PHP, React, Node.js, Express.js, Bootstrap, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code

CERTIFICATIONS & ACHIEVEMENTS

- Workshop on Artificial Intelligence with Machine Learning at Mechanica 2025, IIT Madras.
- Agile Project Management Certification from HP, focused on agile methodologies and project management best practices.
- The Complete Java Development Bootcamp from Udemy, focused on OOP, arrays, collections, exception handling, and Java 21 practice.
- Automation Tester Blueprint with JAVA from The Testing Academy.
